

## Resolution to Amend Building Permit Fees

It is moved to change the fee schedule for building permits in political subdivisions under the planning and zoning assigned to Walsh County.

The permit fees will be:

\$1.00 to \$25,000 in value = \$50.00

\$25,001 to \$150,000 in value = \$100.00

\$150,001 and up in value = \$200.00

Failure to obtain a building permit before beginning of construction will result in a penalty twice the cost of the permit.

All houses will require a permit whether farm exempt or not. Any buildings other than the residence being build that will be farm exempt will not need a permit. All other structures, excluding lawn sheds will need a permit.
